Cole Chemical & Distributing, Inc., is pleased to announce it has sold 40% of its interest to Berryman Smith LLC., effective January 31, 2022.

Donna F. Cole, advised that "For the 42 years Cole Chemical has been in business collaborating with, buying and selling chemical products to and from Berryman Chemical Inc., a wholly owned subsidiary of Berryman Smith, LLC. Today, we take this relationship to a new level as we secure a long-term business strategy for Cole Chemical's future growth."

This move provides Cole Chemical with access to a much broader product line and supply chain that includes 7 national terminals for regional supply efficiencies, 10 warehouses, a 500+ tank car fleet along with inhouse chemical blending, reaction and manufacturing located in Baytown, Texas. With these additional efficiencies Cole Chemical will bring greater value and service to our customers.

There will be no changes in doing business with Cole Chemical as we remain a certified Minority and Woman owned business to continue to assist customers in meeting their ESG goals with safety, quality, and service at the forefront.

Mr. Mike Hoover, VP of Business Development, can be reached at mhoover@colechem.com or by cell 281-736-6648 for your product and service inquiries.

Thank you for your business and past courtesies. I am looking forward to continuing to mutually grow our businesses.

Best wishes,
Donna F. Cole, President & CEO
